

What is Plan Management?

Think of a Plan Manager as a middleman between you and the NDIS with all the insider knowledge working on your behalf.

You have similar freedoms of choice that come with being self-managed but with experienced industry experts to lean on.

Advantages of being Plan Managed:

- * Your registered Plan Manager will manage payment and paperwork for all of your providers
- * Experienced professionals to help you manage your budget
- * Help and support navigating the NDIS
Plan management is funded by the NDIS and has its own budget separate from other NDIS services so it comes at no extra cost
- * Having someone else manage the bills and paperwork means less hassle for you and more time to do the things you enjoy
